The receiver was also updated to replace the frontly flattened front sled with a Quick-Disconnect Sling Swivel Vitor, which makes the attack on two points or the extremely fast and easy removal, and single-senior sled users can completely remove the sled Front, if they want it. I have difficulty seeing some red points with my eyes worse and the Eotech's have always been clear for me. This is my personal hands my personal favorite flow support. If you buy a premium perspective, then mount it on a premium set of rings. Double gas adjustment settings ensure its operation, even with more dirty ammunition and in adverse conditions. The Stock Aug A3 M1, the piece of cocking and the forward grip are made in highly durable synthetic and are available in black, green, mud and white colors. Elcan Spector is a shown firearm that was used by many units special operations all over the world. It also has a quick change rod with a folding bow and a two-position safety that blocks the trigger. Instead of adding offset iron views, for the final setting, go with a red micro dot. Vortex makes some great areas and the Razor HD Gen II is one of their flagship areas. They make a combo kit that includes both accessories you will need. The railway and optical platforms on all three Aug A3 M1 versions are interchangeable through the three basic screws that thread on the bottom of the top of the receiver. If you don't have a steyr aug you click here to check the current price and availability. Click here to check the current prices of the Geissele Super Precision Mount Offset Trijicon RMR having an LPVO field mounted as a primary perspective could let you want an offset red point for rapid transitions to close commitments. ?GUA ?GUA ryetS irossecca e itnemanroigga iroilgim i onos ilauQ smA-ryetS oirateirp led elauNaM .GUA ryetS irossecca e itnemanroigga iroilgim ied atsil aim al "À It is a prism -style perspective that has a 1 ÷velop 4x magnification and the lattice is calibrated for the 5.56 mm round. Cié allowed you to perform a better perspective and add iron mirini with a view to an offset of 45 degrees. Everyone has a price in the same way and everyone is exceptional choices during the update and addition of accessories to your August Steyr. A negative appearance is that it is more heavy, but I find that it works great on Steyr Aug for how light the rifle is. Click here to check the current prices of the defensive Mount LCS Cloud - the best updates and accessories Steyr Augo, here it is. Steyr Aug is a bullpup rifle designed in Austria in the 70s. It is extremely robust and reliable and is a high level perspective. Many people often neglect it when choosing a field of application and usually go with something cheap when it comes to assembly. Reliable, robust and accurate are the main strengths here. This is one of the great disadvantages of the configuration of the steyr factory Aug you give you the standard. If you want the jacket you can mount. go with Geissele. Click here to check the current prices of the Corvus Defensio M-LOK Best Steyr Aug Optics kit so that there are three optical configurations that I recommend for Steyr Aug. I think there are some changes and updates that should be made to leave this rifle can be the best. The shop does not work correctly if the cookies are disabled. They still ship to the United States but you will pay for some more for shipping. Click here to check the current prices of the Mini Scout Light Best Aug M300 Surefire Monte Monte to mount the light of the weapon I like Arisaka Defenda Inline Monte M-Lok. Also, to get the most out of the platform. The support has 3 different heights in which the light of the weapon can be mounted eralopop eralopop e enumoc otlom "À mm 54 x 65.5 ni otaioggolA. enoizaruqifnoc atseq rep acitto eroilgim al "À çARMR nocjirT II .elucif lus ecul atseq rep enoizaruqifnoc eroilgim al "À This is used by the AR-15. It is the most compact and simplified way to handle the cable and securely mount the switch. If you are looking for a very clear area, then this is the way to go. This does not make the gunfish as heavy as on a traditional rifle. Improve the trigger will greatly increase your accuracy during shooting, especially while involving goals are greater distances. The mountain is integrated for ESP33 so you can save some money without having to buy one separately. An Elcan, LPVO (low power variable optics) and Eotech with G33 magnification. It is easily installed and you will not need special tools for this update. This optic is also provided with the integrated mountain. And honestly, if you don't already own an eotech, it's time you take one. The AUG A3 M1 optical version has a more traditional AUG flow pipe with exceptionally bright and clear optical elements, modernized with the addition of three Picatinny railway sections to accommodate accessories such as a holographic show to nearby neighborhoods. It is available in two different colors and personally I like the color of the flat dark earth and looks fantastic on the scar 17. Let's jump in and take a look at this incredible firearm. The A3 M1 A3 has a total length of only 28.15 inches, including its 16 inch heavy barrel, making it at least 8 inches shorter than a M4 carbine with a comparable length barrel. The defensive cloud also creates a Keymod version. There are channels under the support to route the cable and the switch is perfectly safe on the support. Steyr Aug Current Models in Best Steyr Aug Trigger 20/20 Trigger Sear Mod Sear is the best update you can do for your Steyr Aug right away. Basically, it will depend on your personal preference. Rurple platform with a short-range adjustable operation, donated gas-piston for 5.56x45mm (.223 Remington) ammunition in stock 10-, 30- or 42-Round magazines. The LPVOs are here to stay and there was a huge movement to them for the battle rifle installations. This product is produced by Rat World and greatly improves the standard factory trigger. The short-range gas-population operation is extremely cleaned by nature, because all the operating exhaust pans out of the front of the rifle. Being able to quickly turn the magnification from the perspective is a strength multiplier and very useful. The rifle is available both in the standard version that accepts original Steyr Aug magazines or as a NATO version that accepts Standard Stanag magazines (AR). The Surefire Scout Light Pressure Switch is compatible with the M300 weapon light and is supplied with a new tail cap. Corvus Defensio is one of the few companies that do it well. Geissele Super Precision Mount is the one I recommend to mount it on your Steyr Aug. This gun has crossed many different changes since its inception. Click here to check the current prices of the Eotech EXPS3 Magnifier Combo Related Articles Best Steyr Aug Weapon Light I am a strong believer in having a good weapon light on every firearm and Steyr Aug is no exception. Complete list of the items Mentioned (click the links for the most updated prices) unfortunately, you will have to order this directly from Corvus Defensio and are located in Germany. This perspective is fast and has the ability to reach further with the 6x. Click here to check the current prices of the pressure interview Surefire Scout Best Pressure Switch Mount the best way to mount your pressure switch on your M-Lok rail is with the defensive LCS Mount cloud. Click here for The current prices of 20/20 Precision Trigger Sear Mod Corvus Defensio M-Lok Set (Monolithic Rail & Handgard) one of the best best Modernizing your Steyr Aug is adding a new higher track and an M-Lok parapet. A great thing about the upper track is that it gives you more railway space. It was an iconic rifle that was used in Hollywood films to earn popularity. Momentattly One is that is the pressure switch and this option is more useful and practical in a situation in the real world. Using an optical attachment platform similar to the rare and very refined Aug A2, the Aug A3 M1 is available in the factory with an extended track, but optional short, high, 1.5x or 3x optics will ship separately. With 16 numbered slots, the high rail version was designed to accommodate the largest range of optical choices and the 11 slot short rail version was designed for use with a reflexive viewfinder or a prominent perspective More long. Vortex has several lattices to choose from and you can choose which is right for you. With these modern updates, I bring Steyr Aug to the next level and really improve the effectiveness. With limited railway space, I recommend the surefire m300 mini scout light. If you want to read my complete review of Elcan Spector, you can click here to check it. Even the magnification is no exception. Click here to check the current prices of the Elcan Vortex Razor HD Gen II spectrum the best LPVO for Steyr Augo is the Vortex Razor HD Gen II. Click here to check the current prices of the super precision support of the Vortex HD Gen II razor if you decide to use the LPVO vortex, the best support you can get because it is the geissele super early support. It was adopted by several soldiers all over the world and has been demonstrated in combat.
